

# COSC 251 – Lab #4

Whenever.

Purpose: Use Whenever to craft a small solution

Task: Utilizing Whenever, create a simple add2integers program. This program should get two integers from the user, add them together, then print out the result. That's it.

Deliverable: the .txt file that contains your source. No comments in Whenever, so, you're safe on comments. You may work on this lab in pairs, but if you do so, you need to put a comment in through blackboard with who you're working with.

Due: By 11:59pm Tuesday after spring break. No exceptions. To be turned in via Blackboard.
